Dairy Information

The Relationship of Dairy Product Commodities in Storage, and Milk Prices

Dairy product commodities held in storage affect milk prices. Consider the relationship of government and commercial holdings of dairy products and California's overbase price. The data indicate that when inventories are decreasing, the overbase price tends to be increasing. The reverse is also evident; when inventories are increasing, the overbase price tends to be decreasing.

As reflected in the two graphs:

- From June to November 2001 (blue-shaded region), the volume of butter, Cheddar cheese and NFDM in storage decreased by 243 million lbs. (-15%). During this period, the overbase price averaged \$14.10 per cwt. and ranged from \$11.97 to \$15.25 per cwt.
- From December 2002 to May 2003 (green-shaded region), the volume of butter, Cheddar cheese and NFDM in storage increased 312 million lbs. (17%). During this period, the overbase price averaged \$9.50 per cwt. and ranged from \$9.23 to \$9.78 per cwt.

Compared to May 2001 levels, May 2003 storage of butter was up 110%, Cheddar cheese was up 8%, and NFDM was up 51% - while the statewide overbase price was down 33%.

DAIRY INDUSTRY NEWS

National Dairy Situation & Outlook – USDA Estimates

Milk Production and Cow Numbers

Monthly: Compared to 2002, USDA estimates that overall milk production across the U.S. was up 0.6% in July, led by Idaho's 8.0% growth in milk production (on 16,000 more cows and 70 more pounds per cow). California's estimated production was down 0.6% (on 46,000 more cows and 60 less pounds per cow). Among other western states, Arizona was down 1.1%; New Mexico up 3.5%; and Washington down 1.6%. Four of the top 10 states reported a decrease: New York -2.4%; California -0.6%; Washington -1.6%; and Pennsylvania -3.4%.

Quarterly: For the second quarter of 2003 compared to the first quarter of 2003, U.S. milk cow numbers were down 0.4% at 9.114 million, production per cow was up 2.6%; the net effect was a 2.3% increase in milk production to 43.9 billion pounds. USDA projects that for the third quarter of 2003 compared to the second quarter of 2003, U.S. milk cow numbers will decrease 34,000 cows to 9.080 million cows, production per cow will be down 4.8%; the net effect would be a 5.2% decrease in milk production to 41.6 billion pounds.

Milk Prices

Comparing the second quarter of 2003 to the first quarter of 2003, U.S. average milk prices were down \$0.30/cwt. to \$11.07/cwt. USDA projects that for the third quarter of 2003, U.S. average milk prices will be up \$1.70-2.00/cwt. compared to the second quarter; including a \$3.20-3.50/cwt. Class 4b price increase and a \$0.25-0.65/cwt. Class 4a price increase.

Utility Cow Prices

Comparing the second quarter of 2003 to the first quarter of 2003, average U.S. utility cow prices were up \$6.20/cwt. to a national average of \$46.52/cwt. USDA projects that utility cow prices will average \$49-51 in the third quarter of 2003.

Information from the USDA-NASS publication "*Milk Production*" and the USDA-ERS publication: "*Livestock, Dairy, and Poultry Outlook*."

California Cheese Dominates

American Cheese Society Annual Competition

In early August, the American Cheese Society's annual conference and competition, the most prestigious national cheese event of the year, took place in San Francisco. Specialty, artisan, and farmstead cheese producers from 28 states and four countries entered 615 cheeses in the highly competitive judging. For the third consecutive year, California's cow's milk cheese producers earned more awards for their cheese than any other state. In 2002, California's 60 cheesemakers, half of which are specialty, artisan, or farmstead producers, produced more than 200 varieties and styles of cheese totaling 1.72 billion pounds. Even though California cheesemakers are outnumbered by some states in the competition such as Wisconsin, Colorado, New York, and Vermont, California has more artisan cheesemakers and farmstead cheesemakers than any other state. Artisan cheesemakers produce high quality, handcrafted cheeses in small quantities and farmstead cheesemakers produce cheese from milk coming only from the herd located on their farm.

With 615 cheeses entered in the competition, top honors (Best of Show) went to Cowgirl Creamery of Point Reyes for Red Hawk, a soft-ripened washed-rind cheese. The cheese is

named after the red-tailed hawk that is indigenous to the area. Another first-place winner was the state's oldest cheese producer, Marin French Cheese Company, Petaluma, which won five awards this year, including a first-place in the Soft Ripened Cheese category, and two recent newcomers, Fiscalini Cheese Company, Modesto, won three awards, including a first-place for best Farmstead Cheese, an award Fiscalini won for the second year in a row, and Sierra Nevada Cheese Company, Willows, which won for its Gina Marie natural cheese spread.

Winchester Cheese Company, Winchester, distinguished itself by winning first and second-place awards in the same category (Dutch Style, All Milks Category) for two of its Gouda varieties. Spring Hill Jersey Cheese, Petaluma, won a first place for its Dry Jack. In addition, Rizo-Lopez Foods, Riverbank, and Karoun Dairies, Sun Valley, received all three first-place honors awarded in the Hispanic & Portuguese Style Cheese category.

Late Payments to Producers On the Rise . . .

In recent months, late payment to producer violations have risen in number resulting in substantial interest and penalties charged to the handlers in violation. In some instances, the late payment violations have occurred over several months. Producers and handlers need to use due diligence in maintaining an accurate accounting system for all milk and to report to the Department any payment problems that are occurring. In addition, when a producer (including a cooperative) fails to notify the Department of improper payments for milk, or causes the violation by repeatedly billing incorrectly, the Department will consider depositing the interest charged to the handler into the Milk Producers Security Trust Fund rather than paying it to the producer.

DATA SUMMARIES ---

COMMERCIAL PRODUCTION OF ALL MILK

Production of all milk on farms and ranches in California during July 2003 totaled 2.95 billion pounds, 0.9 percent less than the quantity produced during July 2002. For the twelve months ending July 2003, total milk production increased 3.1 percent relative to the same period in 2002.

MANUFACTURED PRODUCTS

For the month of July 2003, as compared to July 2002, the total manufacture of butter decreased 18.6 percent; manufacture of nonfat dried milk for human consumption decreased 12.3 percent; manufacture of total cheese increased 10.8 percent; and manufacture of total frozen products decreased 7.3 percent.

SALES OF CLASS 1 MARKET MILK

Sales of Class 1 market milk products in California during July 2003 were down 0.9 percent relative to sales during July 2002.

1/ Prices as reported by the Dairy Marketing Branch in the monthly class price letter.

2/ Prices as reported by the Milk Pooling Branch in the monthly pool price letter. Quota price is not reduced by the Regional Quota Adjuster (RQA).

3/ Gross pool value after RQA and Transportation Allowance adjustments divided by the total pounds of pooled production. Price is at actual test, which is generally higher than the 3.5% fat and 8.7% SNF used in all other prices.

4/ Effective July 1, 2002, Class 1, 2, and 3 hundredweight prices include Milk Producers Security Trust Fund charges.

December	1.1139		1.1290				0.8594	

** Formulas used the Federal Support Purchase Price

1/ The formulas, as of April 1, 2003, compare the calculated prices from the Chicago Mercantile Exchange (for butter and Cheddar cheese) or California weighted average price (for nonfat powder) to the federal support purchase prices for the three products. The higher value is selected for use in the pricing formulas. Federal Support Purchase Prices: Bulk Butter \$1.0500/per lb.; 40-lb. Block Cheddar Cheese \$1.1314/per lb.; Nonfat Dry Milk \$0.8000/per lb.

2/ All commodity prices are for the 26th of the prior month to the 25th of the current month.
When the Class 2 and 3 prices are issued every other month, the commodity reference prices are the same as those used for the calculation of that month's Class 4a and 4b prices.

3/ Simple average of the mostly price as reported by "Dairy Market News"

**Grade AA Butter, Block Cheddar Cheese, Nonfat Dry Milk Prices
Used in the Calculation of Class 1 Prices**

Milk Mailbox Prices in Dollars per Hundredweight

	November	December	January '03	February	March	April	May
California ¹	\$10.69	\$10.68	\$10.64	\$10.33	\$10.06	\$10.26	\$10.13
USDA ²	\$11.75	\$11.69	\$11.61	\$11.19	\$10.73	\$10.79	\$10.83

¹ California mailbox price calculated by CDFA.

² All federal milk market order weighted average, as calculated by USDA.

In May 2003, mailbox milk prices for selected reporting areas in Federal milk orders averaged \$10.83 per cwt., \$0.04 more than the figure for the previous month. This month-to-month increase results from general higher Federal milk order minimum producer milk prices component prices. The component tests of producer milk in May 2003 were: butterfat, 3.61%; protein, 2.97%; and other solids 5.73%. On an individual reporting area basis, mailbox prices decreased in 12 reporting areas and increased in 4 reporting areas, unchanged in one area, and ranged from \$13.18 in Florida to \$9.62 in New Mexico. In May 2002, the Federal milk milk order all-area average mailbox price was \$11.83, \$1.00 higher.

Note: Effective with the January 2003 report, the Iowa reporting area has been removed from the Corn Belt States reporting area and is reported separately. The Northern Missouri reporting area has been added to the Corn Belt States reporting areas.

COMMODITY MARKET PRICES

\$ Per Lb.

Chicago Mercantile Exchange Grade AA Butter – Daily Simple Average (June 26 th -July 25 th)	\$1.1833
Chicago Mercantile Exchange Block Cheddar Cheese – Daily Simple Average (June 26 th -July 25 th)	\$1.4655
California Extra Grade & Grade A Nonfat Dry Milk – Monthly Weighted Average (June 26 th -July 25 th)	\$0.8031
Western Dry Whey (Mostly) – Monthly Simple Average (June 26 th – July 25 th)	\$0.1468

FEDERAL SUPPORT PURCHASE PRICES:

Bulk Butter	\$1.0500
40 Pound Block Cheddar Cheese	\$1.1314
Nonfat Dry Milk	\$0.8000

Note: The formulas for Classes 2, 3, 4a, and 4b, as of April 1, 2003, compare the calculated prices from the Chicago Mercantile Exchange (for butter and Cheddar cheese) or California weighted average price (for nonfat powder) to the federal support purchase prices for the three products. The higher value is selected for use in the pricing formulas.

August 2003 Class 4a and 4b prices will be issued no later than 4:00 p.m. on September 2, 2003.

Source: AC Nielsen Scantrack Reports on Refrigerated Milk. The low and high price on this chart does not represent the lowest or the highest observed price, but rather weighted averages for specific brands of milk within the specified market. Data includes organic milk. Data subject to revision. July data reported for the week ending 7/12/03.

Source: AC Nielsen Scantrack Reports on Refrigerated Milk. The low and high price on this chart does not represent the lowest or the highest observed price, but rather weighted averages for specific brands of milk within the specified market. Data includes organic milk. Data subject to revision. July data for the week ending 7/12/03.
